

A

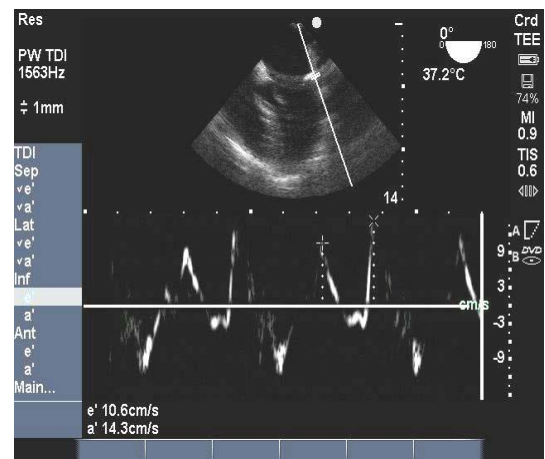

B

S1. Diastolic function (E and A) of the sevoflurane group after anesthesia induction hemodynamic stability (A) and at 1 hour later (B).

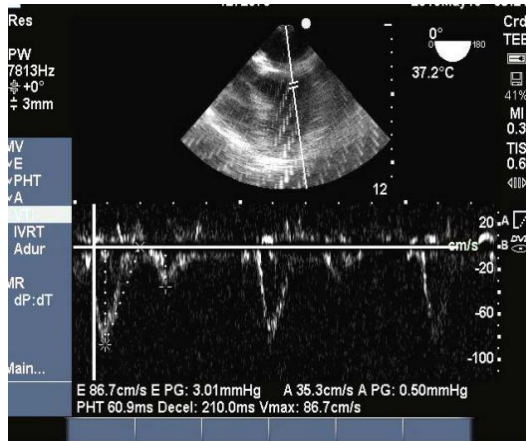

C

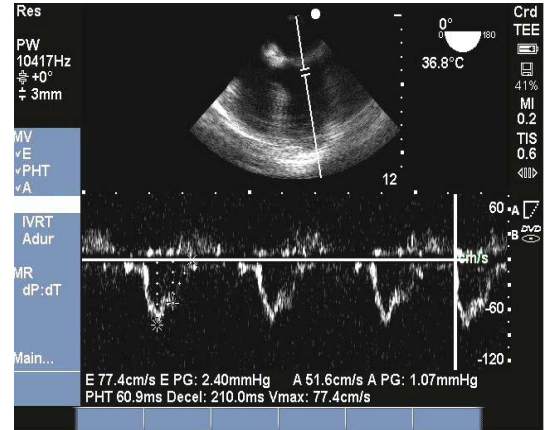

D

S2. Diastolic function (e and a) of the sevoflurane group after anesthesia induction hemodynamic stability (C) and at 1 hour later (D).

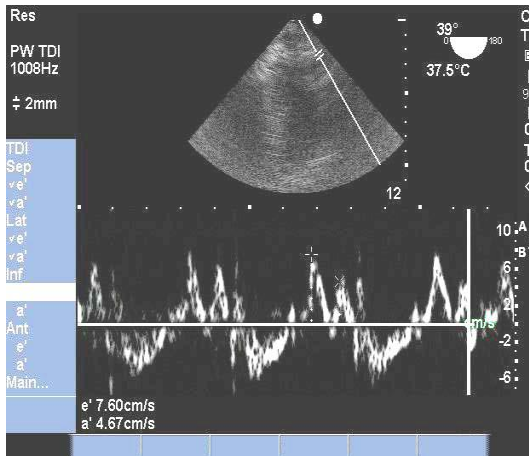

E

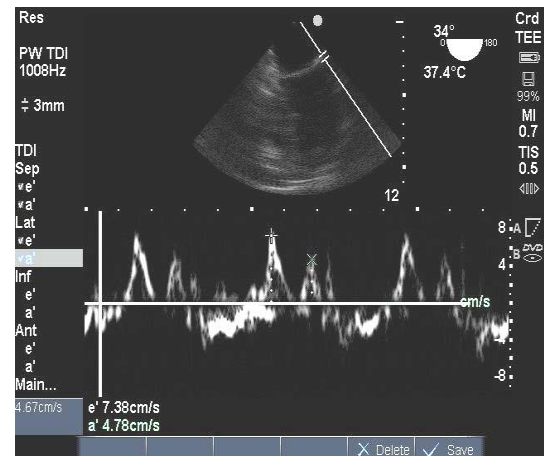

F

S3. Diastolic function (E and A) of the sevoflurane + TAPB and RSB group after anesthesia induction hemodynamic stability (E) and at 1 hour later (F).

G

H

S4. Diastolic function (e and a) of the sevoflurane + TAPB and RSB group after anesthesia induction hemodynamic stability (G) and at 1 hour later (H).
