Supplementary Fig. S3

GO:0045055: regulated exocytosis
R-HSA-76002: Platelet activation, signaling and aggregation
GO:0030036: actin cytoskeleton organization
GO:0009611: response to wounding
R-HSA-5653656: Vesicle-mediated transport
GO:0006897: endocytosis
hsa04530: Tight junction
GO:0051186: cofactor metabolic process
GO:0044403: symbiosis process
M186: PID PDGFRB PATHWAY
hsa05130: Pathogenic Escherichia coli infection
GO:0034330: cell junction organization
hsa04510: Focal adhesion
GO:0000904: cell morphogenesis involved in differentiation
GO:0035722: interleukin-12-mediated signaling pathway
GO:1903827: regulation of cellular protein localization
GO:0030031: cell projection assembly
GO:0051017: actin filament bundle assembly
GO:0051235: maintenance of location
GO:0010035: response to inorganic substance
