

I agree to serve as a subject in the research mentioned above. I understand the concept of this research. All information taken from the study will be coded to protect each subject's name. No names or other identifying information will be used when discussing or reporting data. I also understand that my responses may be reported in the paper and presentation, and my identity will be kept confidential, and no identifying information about me will be included. I understand that the risks to me are minimal.

There will be no compensation of any kind available for my participation. I understand that my participation in this project is completely voluntary and that my choice of whether to participate in this project. I am free to withdraw at any point before or during the research procedure.

**Did you perform any procedures on live animals directly during your studies?**

Yes

No

If so, what were the procedures?

.....

**If you have conducted scientific procedures on animals during your studies period, what feelings have you experienced? Please indicate all the true answers.**

Fascination

Curiosity

Reluctance to do the exercise

Compassion for animals

Aiming to postpone the exercise in time

Wanting to swap with another person who will do the exercise for me

Fear

Anxiety

Others- what kind? .....

**Have you tried to avoid conducting procedures on animals during your studies period? If yes- how did you do it?**

Planned absence from classes

Switch with another person

Refusal to perform the exercise

Performing another task "in return"

Others- what kind? .....

**Which year did you conduct your first experiment using animals? Please describe the brief type of experiment.**

.....

**Which animals were used in experimental procedures? How many animals were used?**

.....

**What feelings have you experienced after finishing the research protocol on animals?**

- Relief
- Satisfaction with well-executed procedures
- Animal regret
- Remorse
- Irritation
- Helplessness
- Indifference
- Curiosity about the results
- Others- what kind? .....

**Do you personally sacrifice animals?**

- Yes
- No

**Killing animals is stressful for me**

- Definitely yes
- Yes
- Hard to say
- Rather no
- Definitely no
- Other.....

**If yes- can you indicate why**

- Fear of the experience succeeding
- Awareness of responsibility for the funds spent
- Fear of evaluation by colleagues
- Feeling responsible for the lives of animals
- Fear of aggressive reaction of the animal
- Fear of damaging your own body (e.g., during decapitation with the guillotine)
- Others- what kind? .....

**I see handling's positive impact on experiments with animals.**

- Definitely yes
- Rather yes
- Hard to say
- Probably no
- Definitely no
- Others- what kind? .....

**How handling effects your relations with animals?**

- Well done handling calms me down
- I feel comfortable doing the handling
- Thanks to the handling, I'm able to handle the animals
- The handling makes it more difficult for me to perform procedures
- Does not affect the relationship with animals

I'm annoyed by the waste of time  
Handling does not impress me at all  
Others - which ones?

**What feelings have you experienced when regulations imposed obligatory use of environmental enrichment for experimental animals?**

Definitely positive - a necessary innovation  
Rather positive.  
It's hard to say  
Rather negative.  
Definitely negative - a waste of time / money  
Others - which ones?

**Do you plan to carry out further procedures involving laboratory animals? (multiple choice question)**

I intend to continue the experiments with the animal model  
I intend to use only in vitro cultures  
I don't intend to continue research with animal models  
It's hard to say  
Others- what kind? .....

**Please indicate whether the following sentences are true. (Mark T/F)**

There is no way to move away from animal experiments nowadays.  
Animal experiments are inevitable.  
Animal experiments should no longer be conducted today.  
I believe that a large part of animal experimentation is superfluous.  
Animal experiments cause emotional strain.  
I feel guilty about killing animals.  
I perform experiments on animals because there is pressure from the environment.  
I would most willingly avoid animal experiments.  
My research on animals is valuable to the international scientific community.  
Other comments? .....

**What scientific discipline do you represent?**

.....

**Gender**

Women

Men
