SURVEY ON KNOWLEDGE AND ATTITUDE TOWARDS SMOKING CESSATION COUNSELLING IN THE DEPARTMENTS OF CARDIOLOGY, CARDIAC INTENSIVE CARE UNIT AND ONCOLOGY SURGERY OF THE AOUP AND CIVIC HOSPITAL OF PALERMO

We ask your cooperation in filling out the following questionnaire anonymously. The data will be used to assess the attitude and knowledge of nursing staff with regard to smoking cessation counselling. Counselling is a process that, through dialogue and interaction, helps people to solve and manage problems (in our case tobacco addiction) and to make decisions.

Personal	<u>data</u>							
Ger	nder							
□ N	/Iale	□ Female
