

a)

## PCA 13 loci axes 1-2

b)

## CA 13 loci axes 1-2

**Figure S3: PCA and CA of the 13 SSR loci data set.**

a) Principal components analysis (PCA) showing axes 1 and 2; PC1 and PC2 explain 6.34% of the variance (PC1:4.3%, PC2: 2.0%).

b) Correspondence analysis (CA) showing axes 1 and 2.

Population labels as shown in Table 2.
