

Full-Text Data Extraction Fields

Citation Information

- Title
- Authors
- Year
- Date Screened
- Name of Individual Screening
- Article

Study Details

- Acidification
- Anthropogenic Use
- Aquaculture Impacts
- Carbon
- Drought
- Epiphytes
- Genetic Diversity Loss
- Habitat Fragmentation
- Herbicides
- Herbivory
- Hydrodynamics
- Invasion
- Invertebrates
- Light
- Microbial Dysbiosis
- Nutrients
- Oxygen
- Pathogens
- Salinity
- Seagrass competition
- Sediment
- Temperature
- Toxins

Community Response Variables

- Chlorophyll A
- Distribution
- Epiphytes
- Invertebrates
- Macroalgae
- Microbial Diversity
- Organismal Diversity
- Seagrass competition

Study Details

- Study Design
 - Field
 - Mesocosm
 - Model
- Study Type
- Survey
- Manipulative
- *Zostera* species
 - *angustifolia*
 - *asiatica*
 - *caespitosa*
 - *capensis*
 - *capricornii*
 - *caulescens*
 - *chilensis*
 - *japonica*
 - *marina*
 - *mucronata*
 - *muelleri*
 - *nigricaulis*
 - *noltii*
 - *tasmanica*
- Location Name
- Location (GPS)
- Latitude
- Longitude

Environmental Response Variables

- Sediment Characteristics
- Sediment Nutrients
- Water Column Dissolved Oxygen
- Water Column Nutrients
- Water Column pH
- Water Column Salinity
- Water Column Temperature
- Water Column Turbidity

Plant Response Variables

- Growth
- Photosynthetic Output
- Physiological Measures
- Reproductive Output
- Shoot Density

Additional Fields

- Growth
- Photosynthetic Output
- Physiological Measures
- Reproductive Output
- Shoot Density
