

Gent, August 23, 2024

CERTIFICATE OF DEPOSIT

This is to certify that the following microorganism has been deposited into the public BCCM/LMG Bacteria Collection and will be available for research purposes without restrictions:

LMG Number: LMG 33711

Species name: *Pseudomonas arvensis*

Depositor: Mathieu Delitte, UCL - Earth and Life Institute, ELIM, Belgium

Depositor no: DR1PS3

The strain has been checked for viability and is preserved using one of the standard methods at BCCM/LMG. Authenticity was confirmed by the BCCM/LMG quality control check as communicated with the depositor.

BCCM/LMG is not responsible for eventual discrepancies in characterization of the deposited material and its original description.
